- (b) major expenditures for repair, replacement and maintenance, the benefit of which will extend more than one year.

(2) Section 1 of the Regulation is amended by adding the following subsection:

(2) For the purposes of an application under any section of the Act except subsection 86 (1) (part building review), a capital expenditure does not include any item listed in Table 2 unless,

- (a) work that involves an item on Table 2 is being done inside at least 25 per cent of the rental units in the residential complex; or
- (b) the capital expenditure allowance per item would equal at least 1 per cent of the gross potential rent. O. Reg. 190/90, s. 1 (2).

2. Section 10, as amended by section 1 of Ontario Regulation 459/87, section 11, as amended by section 2 of Ontario Regulation 518/87, and sections 12, 13, 14 and 15 of the Regulation are revoked and the following substituted:

Capital Expenditures

10.—(1) The amount of a capital expenditure is the sum of,

- (a) the purchase price, installation cost, renovation cost or construction cost of the capital expenditure;

- (b) the value of the landlord's own labour; and
- (c) the rental value for rental units that are vacant as a result of work relating to the capital expenditure.

(2) The amount described in clause (1) (a) shall be decreased by the amount of any proceeds that the landlord may receive for insurance, salvage, resale or trade-in relating to the capital expenditure.

(3) The amount described in clause (1) (c) shall not include any amount otherwise recognized under the Act respecting the vacancies. O. Reg. 190/90, s. 2, *part*.

10a.—(1) The capital expenditure allowance for that portion of a capital expenditure financed under a government program is the sum of,

- (a) the payments that the landlord makes under the program in a twelve-month period during the base year period and the projected year period; and
- (b) the amount of the allowance for management and administration for that portion of the capital expenditure, amortized over the anticipated useful life of the capital expenditure together with interest calculated in accordance with section 12.

(2) The amount of the capital expenditure allowance referred to in subsection (1) shall not include,

- (a) any amount of the principal amount of the government financing that the landlord paid in an accelerated manner; or
- (b) any payment that was required because the landlord failed to comply with the program. O. Reg. 190/90, s. 2, *part*.

10b. The capital expenditure allowance for that portion of a capital expenditure not financed under a government program shall be determined by amortizing over the anticipated useful life of the capital expenditure the sum, together with interest calculated in accordance with section 12, of

- (a) the amount of the capital expenditure that is not financed under a government program; and
- (b) the allowance for management and administration for that portion of the capital expenditure. O. Reg. 190/90, s. 2, *part*.

Continuing Capital Expenditures

11.—(1) A landlord who wishes to have planned work be treated as a capital expenditure of a continuing nature under subsection 76 (2) of the Act shall

file with the Minister a multi-year plan respecting the work that includes,

- (a) the name of the landlord;
- (b) the address of the residential complex;
- (c) a description of the planned work to be done, including details of the nature, extent and expected starting date of each component of the capital expenditure; and
- (d) a description of the reasons for the planned work.

(2) The planned work described in a multi-year plan shall be found to be a capital expenditure of a continuing nature,

- (a) if the work is intended to repair or replace existing items;
- (b) if any of the work is substantially completed in the period described in subsection 16 (2); and
- (c) if all of the work is substantially completed within five years after the beginning of the period referred to in clause (b).

(3) Work not described in a multi-year plan shall be found to form a part of a capital expenditure of a continuing nature,

- (a) if the work results from the work described in a multi-year plan;
- (b) if the need to do work was not reasonably foreseeable when the multi-year plan was filed; and
- (c) if the work meets the requirements of clauses (2) (a) and (c).

(4) On an application subsequent to the one that included the multi-year plan, the Minister shall find that the capital expenditure is continuing if the work was included on the landlord's multi-year plan or was included in the capital expenditure under subsection (3) and,

- (a) if it is substantially completed within five years after the period referred to in clause (2) (b) began; or
- (b) if it is completed five or more years after the period referred to in clause (2) (b) began and the completion was delayed for reasons beyond the landlord's control.

(5) For the purpose of making allowances for a capital expenditure, only that portion of a capital expenditure found to be continuing and substantially completed during the period described in subsection

16 (2) shall be recognized in that period. O. Reg. 190/90, s. 2, *part*.

Interest on Capital Expenditures

12.—(1) The interest rate allowed on capital expenditures is the average mortgage interest rate for five year conventional first mortgages as reported monthly by the Canada Mortgage and Housing Corporation for the third month before the effective date of the first rent increase for which application is made.

(2) The interest rate applies with respect to the whole capital expenditure, whether financed by borrowing or out of the landlord's own funds.

(3) Despite subsection (2), if the actual interest rate being paid by the landlord on borrowed funds is discounted because the lender has received a guarantee from or on behalf of the landlord, the interest rate allowed on the borrowed funds,

(a) if the actual interest rate is less than or equal to the rate calculated under subsection (1), shall be the greater of,

- (i) the sum of the actual interest rate and the value of the guarantee, or
- (ii) the rate calculated under subsection (1);

(b) if the actual interest rate is greater than the rate calculated under subsection (1), shall be the sum of the rate calculated under subsection (1) and the value of the guarantee. O. Reg. 190/90, s. 2, *part*.

Anticipated Useful Life

13.—(1) The anticipated useful life of new items included in a capital expenditure shall be as set out in Tables 1 and 2.

(2) The anticipated useful life of an item not described in Table 1 or 2 shall be determined with reference to characteristics of the item that are common to other items set out in the Tables and to factors which are reasonable in the marketplace.

(3) The anticipated useful life of an item that is not new shall be considered to be the remaining useful life of the item that is reasonable in the circumstances. O. Reg. 190/90, s. 2, *part*.

Allowance for Management and Administration

14.—(1) In order to be eligible for an allowance for management and administration for a capital expenditure, a landlord is required to disclose information concerning the capital expenditure to the tenant, subtenant or occupant of each rental unit that is subject to a tenancy agreement.

(2) Disclosure is not required for capital expenditures included in an application under subsection 86 (1) of the Act (part building review).

(3) Disclosure is not required for capital expenditures that result from an emergency in which the life, health or safety of tenants is at risk or in which there is a risk of substantial additional damage to property.

(4) Disclosure is not required with respect to work resulting from a capital expenditure,

(a) if disclosure of information for the capital expenditure was made; and

(b) if the need to do the work was not reasonably foreseeable when the disclosure was made.

(5) The landlord shall give each tenant, subtenant or occupant a written disclosure notice at least thirty days before beginning the capital expenditure.

(6) Upon request, the landlord shall give a disclosure notice to each person who becomes a tenant, subtenant or occupant after the date described in subsection (5) and before the landlord makes an application under section 74 of the Act respecting the capital expenditure.

(7) The disclosure notice shall include,

(a) the name of the landlord;

(b) the address of the residential complex;

(c) a description of the planned work to be done, including details of the nature, extent, earliest start date and estimated cost of the capital expenditure;

(d) a description of the reasons for the planned work; and

(e) a description of any disruption in services or in the availability of facilities anticipated by the landlord as a result of the planned work.
O. Reg. 190/90, s. 2, *part*.

14a.—(1) The amount of the allowance for management and administration for a capital expenditure shall be determined in accordance with this section.

(2) The allowance for management and administration is nil unless the landlord discloses the particulars of the capital expenditure in accordance with section 14.

(3) The amount of the allowance for management and administration for a capital expenditure that is not made for an emergency is the sum of,

(a) 5 per cent of the amount of the capital expenditure, excluding amounts for the purchase and installation of furniture, appli-

ances, furnishings and similar fixtures within rental units; and

(b) 5 per cent of the amounts for the purchase and installation of furniture, appliances, furnishings and similar fixtures within each rental unit if the tenant of the rental unit agrees in writing to them.

(4) The amount of the allowance for management and administration for a capital expenditure that is made for an emergency is 5 per cent of the amount of the capital expenditure.

(5) In determining the amount of a capital expenditure for the purpose of this section,

(a) the amount of the purchase price, installation cost, renovation cost or construction cost shall not be reduced by the amount of any proceeds that the landlord may receive for insurance, salvage, resale or trade-in relating to the capital expenditure; and

(b) the amount of the capital expenditure shall not include any amount for the landlord's own labour. O. Reg. 190/90, s. 2, *part*.

Labour Provided by the Landlord

15. If the landlord provides labour required to carry out a capital expenditure, the value of the landlord's own labour shall be found to be an amount that is reasonable in the marketplace. O. Reg. 190/90, s. 2, *part*.

3. Subsection 16 (2) of the Regulation is amended by striking out "subject to subsection 10 (3)" in the second line.

4. Subsection 20 (1) of the Regulation, as amended by section 3 of Ontario Regulation 518/87, is amended by striking out "the cost of the capital expenditure, as set out in clauses 11 (1) (a), (c), (d) and (e)" in the seventh, eighth and ninth lines and substituting "the amount of the capital expenditure".

5. Section 22 of the Regulation and the heading preceding section 22 are revoked.

6. The Regulation is amended by adding the following section:

26a.—(1) This section applies,

(a) if a capital expenditure is considered to be part of the acquisition costs of a residential complex under subsection 20 (1);

- (b) if the capital expenditure is financed in whole or in part by the landlord's own funds; and
- (c) if the amount of the financing recognized for the purchase of the residential complex is less than the maximum amount permitted under section 26.

(2) The amount calculated under subsection (5) shall be treated as if it were a financing cost for the purpose of determining the financial position of the residential complex, the amount of an allowance to relieve the landlord from hardship and the amount of the landlord's financial loss and economic loss in respect of the complex.

(3) The interest rate to be used with respect to the amount calculated under subsection (5) is the average mortgage interest rate for five year conventional first mortgages as reported monthly by the Canada Mortgage and Housing Corporation for the month in which the acquisition occurred.

(4) The amortization period to be used with respect to the amount calculated under subsection (5) is twenty-five years.

(5) The amount is the lesser of,

- (a) the amount of the capital expenditure financed by the landlord's own funds; and
- (b) the maximum amount of financing that may be recognized under section 26 less the amount of the actual financing recognized for the purchase of the residential complex. O. Reg. 190/90, s. 6.

7. Section 38 of the Regulation is amended by adding the following subsections:

(4) If the landlord purchased the residential complex within five years after the first effective date of an order under section 74 or 86 of the Act in which an allowance for capital expenditures was made respecting the complex, the financial position of the complex shall be adjusted by adding to the revenue, as otherwise calculated, the amount, if positive, calculated using the formula,

$$(A \times B \times C \times D) - D$$

in which,

"A" is the amount of the allowed financing for the purchase of the complex, divided by the amount of the acquisition costs,

"B" is the amount of the acquisition costs divided by the annualized maximum rent for all rental units in the complex as at the acquisition date,

"C" is the weighted average, multiplied by twelve, of the monthly payment factors per dollar of the allowed financing for the purchase of the complex (set out in an amortization table), determined using the recognized interest rates and the amortization periods specified under this Regulation for the allowed financing, and

"D" is the sum, after any reduction made under subsection 78 (2) of the Act, of the allowances for capital expenditures made in all previous orders respecting the complex under section 74 or 86 of the Act with first effective dates within five years before the acquisition date.

(5) For the purpose of subsection (4), the amount represented by "D" shall not include any allowance for a capital expenditure found to be of a continuing nature, or found to be continuing,

- (a) if the capital expenditure is set out in a multi-year plan or consists of work that forms part of such a capital expenditure under the authority of subsection 11 (3); and
- (b) if the first effective date of the order in which the capital expenditure is found to be of a continuing nature is more than five years before the acquisition date. O. Reg. 190/90, s. 7.

8. Subsection 48 (10) of the Regulation is revoked and the following substituted:

(10) The amount of the management and administration allowance is the sum of,

- (a) 2 per cent of the cost of purchasing and installing furniture, appliances, furnishings and similar fixtures; and
- (b) 5 per cent of the total of direct labour and material costs, other than costs described in clause (a).

(10a) The amount calculated in subsection (10) shall not include any costs otherwise recognized under the Act respecting management and supervision. O. Reg. 190/90, s. 8.

9. The Regulation is further amended by adding the following sections:

Part Building Review

70.—(1) For the purposes of clause 87 (1) (c) of the Act, the allowance for management and administration with respect to a capital expenditure shall be 5 per cent of the amount of the capital expenditure.

(2) In determining the amount of a capital expenditure for the purpose of this section,

- (a) the amount of the purchase price, installation cost, renovation cost or construction cost shall not be reduced by the amount of any proceeds that the landlord may receive for insurance, salvage, resale or trade-in relating to the capital expenditure; and
- (b) the amount of the capital expenditure shall not include any amount for the landlord's own labour. O. Reg. 190/90, s. 9, *part*.

71. For the purpose of clause 87 (1) (d) of the Act, the Minister shall make findings in respect of the rental units that are the subject of an application regarding,

- (a) changes in the services and facilities provided by the landlord to the residential complex or any rental units located therein, to the extent that the changes relate to the rental units that are the subject of the application;
- (b) the allocation of costs and revenue that are shared and specific to the residential complex under review and any other residential complex that forms part of the same project;
- (c) the allocation of costs and revenue that are shared and specific to the residential complex under review and any non-residential components that form part of the same project;
- (d) the allocation of costs and revenue that are shared and specific to rental units in the residential complex under review; and
- (e) amounts described in subsections 92 (1) and (2) of the Act to be phased in under a previous order respecting the residential complex. O. Reg. 190/90, s. 9, *part*.

72.—(1) For the purposes of clause 71 (a), changes in services and facilities shall be determined in the manner set out in this section.

(2) Changes in parking and cablevision shall be determined in accordance with subsections 7 (2) to (4), (6), (7) and (8).

(3) Findings regarding the withdrawal of services or facilities, other than parking and cablevision, shall be made in accordance with subsection 57 (3).

(4) Findings regarding the reduction of services or facilities, other than parking and cablevision, shall be made in accordance with subsection 57 (4).

(5) If the Minister finds that a service or facility is provided for the first time and the Minister determines that the service or facility is a capital expenditure that the landlord has experienced or will experience, the Minister shall make findings in accordance with sections 10, 10a, 10b, 12 to 16, 18, 19 and 20.

(6) Subsection (5) does not apply with respect to parking, to the extent that section 7 applies in the circumstances, or with respect to cablevision. O. Reg. 190/90, s. 9, *part*.

73.—(1) For the purposes of clause 71 (b), where components of a project include more than one residential complex, one of which is the residential complex under review,

- (a) the costs that are shared among residential complexes shall be allocated to each residential complex on the basis of the proportional gross potential rent for the rental units in each residential complex that are affected by the capital expenditure unless it is demonstrated that it is reasonable to allocate the shared costs on another basis; and
- (b) the costs that are allocated to the residential complex under review pursuant to clause (a) shall be allocated to the rental units of the residential complex that are the subject of the application to the extent that they affect those rental units.

(2) For the purposes of clause 71 (c), where a project includes residential and non-residential components,

- (a) the costs that are shared among the components shall be allocated to the residential complex under review in the same proportion that revenue of the residential complex determined by gross potential rent bears to the revenue of the total project as if fully leased unless it is demonstrated that it is reasonable to allocate the shared costs on another basis; and
- (b) the costs that are allocated to the residential complex pursuant to clause (a) shall be allocated to the rental units that are the subject of the application to the extent that they affect those rental units.

(3) For the purposes of clause 71 (d), costs that are shared and specific to rental units in the residential complex under review shall be allocated to rental units that are the subject of the application to the extent that they affect those rental units. O. Reg. 190/90, s. 9, *part*.

74. In apportioning the total rent increase amongst the rental units in the residential complex, the Minister may take into account the rent schedule proposed by the application and the degree to which the capital expenditures the landlord has experienced or will experience in respect of the residential complex affect individual rental units in the residential complex. O. Reg. 190/90, s. 9, *part*.

75. A capital cost revenue statement referred to in subsection 86 (3) of the Act shall be in Form 11. O. Reg. 190/90, s. 9, *part*.

(2) Subsection 1 (1) of the Regulation is further amended by adding the following definition:

"storm event", in relation to a plant, means a rainfall or series of rainfalls on an operating day that in total exceeds five millimetres as measured by a rain gauge within eight kilometres of the plant or an Environment Canada meteorological station within eight kilometres of the plant;

2. Section 3 of the Regulation is amended by adding the following subsections:

(5) In addition to complying with subsection 3 (19) of the General Effluent Monitoring Regulation, each direct discharger shall use only sampling equipment for the collection of samples, the wettable surfaces of which are made of,

(6) Despite subsection (5), a direct discharger may use sampling devices that contain a short section of surgical grade silicone rubber tubing or other tubing approved by the Director if such tubing cannot be replaced by a material mentioned in subsection (5) without impairing the operation of the device.

(7) For the purposes of subsections 3 (22), (25a) and (26) of the General Effluent Monitoring Regulation,

(9) Each direct discharger shall ensure that there is a rain gauge to which the discharger has ready access at all times within eight kilometres of the discharger's plant, unless there is an Environment Canada meteorological station within eight kilometres of the plant.

ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 221/90.

Exemption—The Richmond Hill Hydro-Electric Commission—RICH-T-1.

Made—April 4th, 1990.

Approved—April 4th, 1990.

Filed—April 27th, 1990.

**ORDER MADE UNDER THE
ENVIRONMENTAL ASSESSMENT ACT**

**EXEMPTION—THE RICHMOND HILL
HYDRO-ELECTRIC COMMISSION—RICH-T-1**

Having received a request from the Richmond Hill Hydro-Electric Commission that an undertaking, namely:

the activities of planning, designing, land acquisition, constructing and operating a new 230 kV to 27.6 kV transformer station for the Town of Richmond Hill on lands within the Parkway Belt between Yonge Street and Bayview Avenue on the north side of future Highway 407,

be exempted from the application of the Act pursuant to section 29; and

Having been advised that the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property will occur:

- A. The people of Richmond Hill will be interfered with as a result of insufficient electrical supply for the Town of Richmond Hill for periods of interruption or supply reduction (“brown outs”) as well as fluctuating line voltages which may be potentially damaging to sensitive electronic equipment such as computers;
- B. The proponent and its customers will be damaged and interfered with by the undue expense required to prepare an Environmental Assessment for an undertaking which will have only minimal effects on the environment.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part in Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act.

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. The undertaking is environmentally insignificant and delays in construction will result in power supply difficulties for the projected supply required by 1993.
- B. The proponent has prepared an Environmental Site Selection Study Report that demonstrates that the environmental effects of construction and operation of transformer station will be very limited and not adverse.
- C. The public and property owners have been made aware of the proposed construction of the transformer station and the proponent advises that there are no outstanding public concerns.
- D. The proponent has carried out pre-submission consultation with the Ministry of the Environment, and circulated the proposal to appropriate Ministries, Agencies and local municipalities for comment. Contact with these groups will be maintained throughout the construction stage of the undertaking.

This exemption is subject to the following terms and conditions:

- 1. This exemption shall expire if construction is not commenced by June 30, 1991.
- 2.—(1) The maximum design levels for noise at the point of reception shall be established in accordance with the Ministry of the Environment Publication NPC-133.
- (2) The noise level of the power transformers to be installed will be tested by Richmond Hill Hydro in accordance with the Canadian Standards Association Publication CAN3-C88-M79.
- (3) If the tests under subcondition (2) establish that the facility noise level exceeds the design levels established in subcondition (1), a noise mitigation study outlining the proposed mitigation measures to reduce the noise impact shall be submitted to the Director, Approvals Branch, Ministry of the Environment, for approval. Approved mitigation measures shall then be undertaken by Richmond Hill Hydro forthwith.
- (4) The noise level of the power transformers shall be tested by Richmond Hill Hydro from time to time to ensure compliance with the maximum design level established in subcondition (1).
- 3. The design and implementation process for the facility will be carried out by Richmond Hill Hydro according to the Environmental Site Selection Study Report and recommen-

dations contained therein; and will be made known by Richmond Hill Hydro to the appropriate government agencies and property owners in the area.

- 4. The transformer station will be enclosed with materials of a design and composition compatible with the adjacent Langstaff Business Park as required by the Town of Richmond Hill.
- 5. Mitigation of any adverse environmental effects during construction shall be undertaken by Richmond Hill Hydro in accordance with section 4 of Ontario Hydro's "Environmental Guidelines for the Construction and Maintenance of Transmission Facilities (1986)".
- 6. Where any activity which otherwise would be exempt under this order is being carried out as or is part of an undertaking for which an environmental assessment has been accepted and approval to proceed received, the activity shall be carried out in accordance with any terms or conditions in the approval to proceed as well as the conditions of this order.
- 7. Where any activity which is the subject of this order is being carried out as or is part of another undertaking which is the subject of any exemption order under the Act, the activity exempt under this order shall be carried out in accordance with any terms or conditions in the other exemption order as well as the conditions in this order.
- 8. Within thirty days of completing construction and again within thirty days of completing the approved mitigation measures, if any, the proponent shall submit a report to the Director of the Environmental Assessment Branch, Ministry of the Environment, outlining how conditions 1 through 5 were met. O. Reg. 221/90.

ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 222/90.

Exemption—The Corporation of the City of Peterborough—PETE-C-1.

Made—April 4th, 1990.

Approved—April 4th, 1990.

Filed—April 27th, 1990.

ORDER MADE UNDER THE
ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—THE CORPORATION OF THE
CITY OF PETERBOROUGH—PETE-C-1

Having received a request from The Corporation of the City of Peterborough (the "Proponent") that an undertaking, namely:

A modification to the design and operation of its landfill site, located on part of Lot 14 in Concession 14, Otonabee Township, involving a change in the sequence of cell utilization and a change to an engineered system for Cells I and J and Cells E and F, to preclude migration of contaminants to the property boundary in contravention of the Ministry's Reasonable Use Policy, without increasing currently approved types or quantities of waste, serviced areas or populations served, and an interim expansion to provide sufficient capacity to ensure disposal of waste until a replacement facility resulting from the ongoing Waste Management Master Plan is in operation,

be exempt from the application of the Act pursuant to section 29; and

Having been advised by the Proponent that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. The Proponent will be subject to delay and expense if it is required to prepare an environmental assessment for the undertaking.
- B. The Proponent will be subject to unnecessary delay and expense in implementing its long term waste management program.
- C. The Proponent, its residents and others served by the site will be without a municipal solid waste disposal facility.
- D. Use of the site in the currently approved sequence and without the required engineered changes to preclude contaminant migration in excess of "Reasonable Use Policy" may lead to contamination of the natural environment. An amended application for Emergency Approval to use Cells I and J as an interim measure was approved by the Ministry of the Environment on July 5, 1989.
- E. The site, as presently approved, does not have sufficient capacity to dispose of the service area's waste until a new facility is found and approved through the ongoing Waste Management Master Plan process.
- F. Waste which is currently stockpiled on Cells G and H may present a health hazard if not properly encapsulated or otherwise

removed. This proposal incorporates the resolution of that problem.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned, the Minister of the Environment, is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. Continued operation of the existing landfill is clearly an interim measure for which there are no other reasonable waste management alternatives which can be implemented within the necessary time frame. A new replacement facility emanating from the ongoing Waste Management Master Plan is not anticipated before mid-1994.
- B. Alternatives which have been investigated do not appear to resolve the potential contamination of the natural environment nor do they provide adequate capacity for Peterborough's waste, pending commissioning of a facility through the ongoing Waste Management Master Plan.
- C. A mandatory public hearing under Part V of the *Environmental Protection Act* for the approval of changes to the design and operation and for an interim expansion will be held thereby permitting the public and government agencies the opportunity to review the proposed changes to the site.
- D. The Proponent is participating in a long term waste management program in accordance with the *Environmental Assessment Act* and it is anticipated that sufficient elements of that program will be implemented prior to the conclusion of the exempt undertaking to ensure that further exemptions from the *Environmental Assessment Act* are not required.
- E. If this exemption is not granted, then it is likely that damage to the natural environment will occur.

This exemption is subject to the following terms and conditions:

1. Where any activity which otherwise would be exempt under this order is being carried out as or is part of an undertaking for which an environmental assessment has been accepted and approval to proceed received, the activity shall be carried out in accordance with any terms or conditions in the

approval to proceed as well as the conditions of this order.

2. By January, 1992, the Proponent will present a detailed proposal consisting of a plan and generic schedule for its long term strategy for waste management to the Director, Environmental Assessment Branch, and send copies to the Director, Approvals Branch, and to the Regional Director, Central Region of the Ministry of the Environment.
3. The Proponent shall file an annual report, commencing no later than December 31, 1990, outlining the municipality's progress in achieving abatement at the existing site and progress in implementing the long term waste management strategy. This report will be submitted to the Director, Environmental Assessment Branch, Ministry of the

Environment, for filing with the Public Record kept under section 31 of the Act by the Branch located at 250 Davisville Avenue, 5th Floor, Toronto, Ontario, M4V 1P5. Copies of the report shall be given to the Director, Approvals Branch, and Regional Director, Central Region.

4. No waste shall be deposited at the site pursuant to this order more than five years after the date of any Provisional Certificate of Approval or Certificate of Approval issued for the purpose of this order nor after the equivalent of 280,000 metric tonnes of waste being received subsequent to January 1, 1989. LAND EXTERMINATION
NOTIFICATION REQUIREMENTS—GENERAL

59a. In sections 59b to 59q,

“application area” means land on which it is intended to perform a land extermination;

“public thoroughfare” includes a highway and any land over which the public has a general right of access but does not include a rest area, picnic area or other area on a highway where the public is invited to stop. O. Reg. 250/90, s. 1, *part*.

59b.—(1) No person shall perform a land extermination by means of a Schedule 1, 2, 3, 4, 5 or 6 pesticide without giving public notice in accordance with sections 59c, 59d, 59e and 59i to 59n.

(2) No holder of an exterminator's licence shall perform a land extermination by means of a Schedule 1, 2, 3, 4, 5 or 6 pesticide without advising the owner, occupier or person having the charge, management or control of the application area who caused the extermination to be performed in writing of the requirements of section 59j.

(3) Subsections (1) and (2) do not apply in respect of land exterminations on,

- (a) land in respect of which substantial measures, such as fencing, have been taken to exclude the public;
- (b) land used for agricultural or forestry production;
- (c) all of that part of the King's Highway known as the Queen Elizabeth Way and that part of the King's Highway known by a number in the 400 series other than rest areas, picnic areas and other areas on the King's Highway where the public is invited to stop; or

(d) a lot or parcel of land on which there are no commercial or industrial buildings, and on which there is at least one and there are no more than four dwelling units.

(4) Subsection (2) does not apply where the person performing the land extermination is,

- (a) an owner of the application area;
- (b) an occupier of the application area;
- (c) a person having the charge, management or control of the application area; or
- (d) a full-time employee of a person described in clauses (a) to (c). O. Reg. 250/90, s. 1, *part*.

59c.—(1) Signs giving public notice of a land extermination shall be posted conspicuously at all ordinary points of access, if any, to the application area.

(2) Where there are no ordinary points of access to the application area, and there is a larger area of land that includes the application area and that is under the same ownership, management, charge or control as the application area, signs shall be posted conspicuously at all ordinary points of access, if any, to that larger area. O. Reg. 250/90, s. 1, *part*.

59d.—(1) Signs giving public notice of a land extermination shall be posted conspicuously at least every 100 metres along the perimeter of the application area.

- (b) there are fewer than twenty dwelling units within one kilometre of any given location in the application area.

(2) Public notice of a land extermination may be given by one or more of the means described in subsection (3) as approved by the Director if the person

intending to perform the land extermination satisfies the Director that,

- (a) the application area is in a rural area and is on a public thoroughfare;
- (b) the application area is in a rural area and is on land against which a public utility or other public work has a right of way if the land extermination is to be performed over the right of way to benefit that work or access to it;
- (c) the application area is in a rural area and the means proposed for giving public notice would adequately protect the public interest; or
- (d) public access to the application area is sufficiently limited to justify doing so.

(3) Public notice of a land extermination under subsection (2) may be given by one or more of the following means:

1. Publication in a newspaper of general circulation in the vicinity of the proposed land extermination at least one week prior to the proposed extermination.
2. The posting of signs in a manner proposed by the person intending to perform the land extermination.
3. The distribution of written notices in a manner proposed by the person intending to perform the land extermination.
4. Such other means as the person intending to perform the land extermination proposes.

(4) The Director may abridge the time period for advance notice set out in paragraph 1 of subsection (3) if he or she is satisfied that a land extermination is urgently required and that to do so would not be inconsistent with the public interest.

ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 270/90.

Exemption—The Corporation of the Town of Kenora—KENO-T-1.

Made—May 17th, 1990.

Approved—May 17th, 1990.

Filed—May 25th, 1990.

ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—THE CORPORATION OF THE TOWN OF KENORA—KENO-T-1

Having received a request from The Corporation of the Town of Kenora (the "proponent") that an undertaking, namely:

the interim expansion, operation and closure of the existing Tri-Municipal Landfill located on the land described as parcel P-357 within the unorganized Township of Haycock for the disposal of the domestic, non-hazardous, solid, commercial and industrial waste of the towns of Kenora, Keewatin and Jaffray and Melick for a period of up to five years,

be exempt from the application of the *Environmental Assessment Act* pursuant to section 29; and

Having been advised by the proponent that if the undertaking to expand the Tri-Municipal Landfill is subject to the application of the Act, the following adverse impacts with the persons and property in the Tri-Municipal Area indicated will occur:

- A. The proponent and its residents and the Town of Jaffray and Melick and its residents will be without a municipal solid waste disposal facility as of January 31, 1991 for up to five years until new waste disposal facilities will be available as a result of the Tri-Municipal long-term waste management master plan.
- B. The towns will be subject to delay if Kenora is required to prepare an environmental assessment for the undertaking.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. The interim expansion of the area approved for landfilling at the existing Tri-Municipal Landfill site is a measure for which there are no reasonable alternatives which can be implemented before January 31, 1991. Steps were and are being taken to reduce dependence on disposal through landfilling by implementing recycling and composting in 1990.
- B. The potential effects of expanding the landfill for an interim period of up to five years are considered minor.
- C. Alternatives have been investigated.
- D. An application to amend Provisional Certificate of Approval No. A7068504 has been made for an interim period of up to five years. A mandatory public hearing under Part V of the *Environmental Protection Act* for the approval of continued or expanded operations will be held.
- E. The towns of Kenora, Keewatin and Jaffray and Melick are participating in a long-term waste management master planning process. The waste management master plan will be completed and implemented in accordance with the *Environmental Assessment Act*.

This exemption order is subject to the following terms and conditions:

1. Where any activity which otherwise would be exempt under this order is being carried out as or is part of an undertaking for which an environmental assessment has been accepted and approval to proceed received, the activity shall be carried out in accordance with any terms or conditions in the approval to proceed as well as the conditions of this order.
2. No waste shall be deposited at this site pursuant to this order:
 - (a) other than as provided for in the decision of the Environmental Assessment Board made pursuant to the hearing referred to in reason D;
 - (b) after the date that a new facility, resulting from the waste management master plan, approved under the *Environmental Assessment Act*, is open to receive waste; and
 - (c) more than five years after the issuance of a Provisional Certificate of Approval or a Certificate of Approval under Part V of the *Environmental Protection Act* pursuant to this order. O. Reg. 270/90.

ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 271/90.

Exemption—The Corporation of the City of Orillia—ORIL-C-1.

Made—May 17th, 1990.

Approved—May 17th, 1990.

Filed—May 25th, 1990.

ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—THE CORPORATION OF THE CITY OF ORILLIA—ORIL-C-1

Having received a request from The Corporation of the City of Orillia that an undertaking, namely:

the proposal to extend the service area of the existing Kitchener Street Landfill, located on parts of lots 11 and 12, Concession 4, in the City of Orillia, to include domestic, commercial and non-hazardous, solid, industrial waste from the townships of Rama and Orillia for an interim five-year period,

be exempt from the application of the *Environmental Assessment Act* pursuant to section 29; and

Having been advised by The Corporation of the City of Orillia that if the undertaking to accommodate the townships of Rama and Orillia is subject to the application of the Act, the following injury, damage or interference with persons indicated will occur:

- A. The Corporations of the townships of Rama and Orillia will be subject to delay and expense if an environmental assessment were required for the undertaking,
- B. The residents of the townships of Rama and Orillia will be without a municipal solid waste disposal facility as of June 30, 1990.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and therefore orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. The expansion of the service area for the existing Kitchener Street Landfill is an interim measure for which there are no other reasonable waste management alternatives available to the townships which can be implemented before June 30, 1990.
- B. The potential effects of expanding the landfill's approved service area for an interim five-year period are minor and relate principally to a slight increase in traffic to the landfill and also result in a decrease in the estimated life expectancy of the landfill site, by approximately two years.
- C. The undertaking does not propose to increase the height, area or capacity of the landfill site as currently approved and described in Provisional Certificate of Approval No. A250601.
- D. The townships of Rama and Orillia have evaluated interim alternatives.
- E. An application to amend Provisional Certificate of Approval No. A250601 has been made for an interim five-year period under the *Environmental Protection Act* for which a mandatory public hearing is required.
- F. It is the intention of the proponent that a long-term waste management program be pursued in accordance with applicable legislation. The City of Orillia and the townships of Rama and Orillia have initiated a long-term waste management planning process by signing an agreement and passing resolutions of Council to prepare a Waste Management Master Plan.

This exemption is subject to the following terms and conditions:

1. Where an activity which otherwise would be exempt under this order is being carried out as or is part of an undertaking for which an environmental assessment has been accepted and approval to proceed received, the activity shall be carried out in accordance with the terms and conditions in the approval to proceed as well as the conditions of this order.
2. Unless The Corporation of the County of Simcoe takes over responsibility for waste management in the County, the municipalities shall diligently implement the waste management master planning process, referred to in reason F.
3. No waste shall be deposited at the site, pursuant to this order, more than five years after the date of any Provisional Certificate of Approval or Certificate of Approval issued for the purpose of the undertaking

exempted by this order, or after approved landfill contour limits for the site are reached, whichever shall occur first.
O. Reg. 271/90.

(6) The insurer is not required to pay a weekly benefit under subsection (1) to a person described in subparagraph iii of paragraph 1 of subsection (2) until the day the person would have been entitled

(2) The following qualifications apply to an insured person who claims weekly benefits under subsection (1):

1. He or she as a result of and within two years of the accident must have suffered a substantial inability to perform the essential tasks in which he or she would normally engage.

3. He or she must attain the age of sixteen years before being eligible to receive the weekly benefit.

- (b) received under any sick leave plan.

(4) The insurer will pay to an insured person who is receiving a weekly benefit under subsection (1), or who but for section 17 would be entitled to the weekly benefit, a benefit of \$50 per week if Optional Benefit 3 has not been purchased, or \$100 per week if it has been purchased, for each person who at the time of the accident was residing with the insured person and in respect of whom the insured person was the primary caregiver if the person receiving the care was less than sixteen years of age or if the person required the care because of physical or mental incapacity.

(5) The maximum amount payable under subsection (4) is \$200 per week, if Optional Benefit 3 has not been purchased, and \$400 per week if it has been purchased.

(6) A weekly benefit under subsection (4) ceases,

- (a) when the person cared for attains age sixteen, unless he or she is incapacitated;
- (b) when the incapacity of the person cared for ceases; or
- (c) when the insured person ceases to be eligible for a benefit under subsection (1) or when the insured person would cease to be eligible had he or she not been disqualified under section 17.

(7) A person cannot receive benefits under this section and section 12 at the same time.

(8) The insurer is not required to pay a weekly benefit under this section,

- (a) for the first week of the disability;
- (b) for any period in excess of 156 weeks unless it has been established that the injury con-

tinuously prevents the insured person from engaging in substantially all of the activities in which the person would normally engage. O. Reg. 273/90, s. 13.

INTERIM PAYMENTS

14.—(1) The insurer will pay full benefits under this Part until the insured person receives payments that would reduce the insurer's obligation through the operation of subsection 12 (4) or 13 (3) if the insured person has applied to receive the payments.

Policy Part C – Loss of or Damage to Insured Automobile

This part of the policy provides a selection of coverages for the policyholder's own automobile. There is usually a deductible amount indicated for each coverage and this amount is either paid by the policyholder toward the cost of repairs or is deducted from the loss settlement.

**ORDER MADE UNDER THE
ENVIRONMENTAL ASSESSMENT ACT****EXEMPTION—MINISTRY OF
TRANSPORTATION—MTC-56**

Having received a request from the Minister of Transportation that an undertaking, namely:

The activity of carrying out the design, acquisition of property, construction, operation and maintenance of Highway 17 from Antrim to Arnprior in the Township of West Carleton, consisting of a four lane divided freeway 11.5 kilometres in length with full access control, interchanges at the major roadways, grade separation at all intersecting roadways along the freeway alignment and relocation of road crossings,

be exempt from the application of the Act pursuant to section 29; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. The Crown will be damaged by an increase in the cost of and interfered with by the delay in the completion of a project for which a planning study and corridor designation was completed prior to the Act being proclaimed in force.
- B. The Regional Municipality of Ottawa-Carleton and The Corporation of the Township of West Carleton will be interfered with by the delay in completion of this project for which a designated alignment has existed since the early 1970's, upon which land use planning and development has been influenced in expectation of the highway construction.
- C. The public will be interfered with and damaged by operational problems in the existing Provincial and local road systems and vehicle accidents on existing Highway 17.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management of the environment

which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. The planning and highway designation for the undertaking was completed before the Act came into force. In 1979, the Ministry of Transportation completed a planning review study which evaluated alternatives involving the upgrading of the existing highway as well as the designated new alignment. The results of this study confirmed the environmental and engineering appropriateness of the designated new alignment. The local municipality and other governmental agencies were involved with this study.
- B. The Councils of The Corporation of the Township of West Carleton and The Corporation of the Town of Arnprior have passed resolutions requesting that the Ministry of Transportation proceed as soon as possible with the undertaking.
- C. The completion of this link of the Highway 17 controlled access freeway will provide for improved safety and will allow the full benefit of the Highway 17 corridor to be realized by the people of Ontario and especially the residents and the business, commercial and industrial developments in the Ottawa Valley.

This exemption is subject to the following terms and conditions:

1. The Ministry of Transportation shall submit a copy of an Environmental Status Statement covering the design and construction of the undertaking, for information purposes, at least thirty days prior to the commencement of construction, to the Environmental Assessment Branch of the Ministry of the Environment for inclusion in the Public Record.
2. The Ministry of Transportation shall contact the appropriate Ministries and Agencies and shall notify the public during the preparation of the Environmental Status Statement. Any concerns which are raised shall be addressed by the Ministry of Transportation in the Environment Status Statement.
3. No construction shall be carried out pursuant to this exemption order unless construction has commenced prior to,

- (a) five years from the date of approval of this order; or

- (b) such later date as may be approved in writing by the Minister of the Environment. O. Reg. 311/90.

EXEMPTION—LA CITÉ COLLÉGIALE—PR-CC-04

Having received a request from La Cité collégiale that an undertaking, namely:

The activity of establishing and operating a French-language college of applied arts and technology at 2445 and 2465 St. Laurent Boulevard in the City of Ottawa,

be exempt from the application of the Act pursuant to section 29; and

Having been advised by La Cité collégiale that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. The people of Ontario will be damaged because the objective of opening the first fully French-language college of applied arts and technology in Ontario in September, 1990 may be frustrated due to the time required for the preparation and approval of an environmental assessment in respect of an undertaking for which no significant negative environmental impacts have been identified.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. Ontario citizens who desire to obtain a post-secondary education in applied arts and technology in the French language are unable to do so due to a lack of facilities.

This exemption is subject to the following condition:

1. This exemption shall expire on December 31, 1990, unless the undertaking has already commenced. O. Reg. 312/90.

ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 336/90.

Exemption—Ministry of the
Environment—MOE-43.

Made—June 14th, 1990.

Approved—June 14th, 1990.

Filed—June 21st, 1990.

ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—MINISTRY OF THE ENVIRONMENT—MOE-43

Having received a request from the Regional Director, Central Region, Ministry of the Environment that an undertaking, namely:

the removal of lead-contaminated soil from residential and public properties in the vicinity of Dixie Road and Queensway Avenue in the City of Mississauga, replacing the soil with uncontaminated top soil and landscaping the properties to a condition approximating that which existed prior to soil removal,

be exempt from the application of the Act pursuant to section 29; and

Being of the opinion that, if the undertaking is subject to the application of the Act, the following injury, damage or interference would occur:

- A. Since lead-contaminated soil on residential properties poses a potential hazard to the health of pre-school aged children, there will be a prolonged exposure of these children to the potential hazard.
- B. The public will become increasingly uneasy over the continuing presence of lead-contaminated soil in view of its potential hazard

to pre-school aged children and the Ministry commitment to remove it.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. The lead-contaminated soil poses a potential hazard to the children of the area. Delays which would be engendered by the application of the Act to the removal program will add to the duration of this potential hazard. Therefore, it is in the public interest to replace lead-contaminated soil in the area expeditiously.
- B. There is a widespread consensus in the community, the Peel Region Health Department, Peel Regional Council in Mississauga City Council that this project should proceed expeditiously.

This exemption is subject to the following terms and conditions:

1. The Director, Central Region, Ministry of the Environment will advise, in writing, thirty calendar days after the completion of the undertaking, the Director of the Environmental Assessment Branch of the Ministry of the Environment, as to how the following conditions of the exemption have been met, for filing with the public records, kept under section 31 of the Act, by the Branch at its office.
2. The Ministry, where appropriate, will inform and consult with agencies, municipalities, public groups and the public, which have concerns with the undertaking before the commencement of the undertaking.
3. The Director, Central Region, Ministry of the Environment will designate specific truck haulage routes to transport waste soil to the Britannia Road landfill site in the City of Mississauga, which are to be followed throughout the undertaking in order to minimize any potentially adverse effects on local residents.
4. The Director, Central Region, Ministry of the Environment will take steps to ensure that the hauling contractor(s) securely contain all loads in order to prevent spillage and will clean up any spillage that does

result from the loading and hauling of the soil. O. Reg. 336/90.

ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 337/90.

Exemption—Toronto Area Transit
Operating Authority—MTC-57.

Made—June 14th, 1990.

Approved—June 14th, 1990.

Filed—June 21st, 1990.

ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—TORONTO AREA TRANSIT OPERATING AUTHORITY—MTC-57

Having received a request from the Toronto Area Transit Operating Authority, herein referred to as "GO Transit", that an undertaking, namely the activities of:

1. Implementing a GO Train service over the following rail corridor segments:
 - (a) between the Pickering GO station and Bowmanville on the CN Kingston subdivision,
 - (b) between the Georgetown GO station and the Guelph VIA station on the Guelph subdivision,
 - (c) between the Bradford GO station and the Barrie CN station on the Newmarket subdivision;
2. Acquisition of property for, and construction of, modification of station or layover facilities in or adjacent to the existing rail corridors referred to in paragraph 1 and required for purposes of paragraph 1,

be exempt from the application of the Act pursuant to section 29; and

Having been advised that the elimination of certain rail passenger services formerly offered by VIA on the CN Kingston, Newmarket and Guelph subdivisions has adversely affected those individuals dependent on these transportation services.

Having been advised that if the undertaking is subject to the application of the Act, the following

injury, damage or interference with the persons and property indicated will occur:

- A. The residents of the areas to be served by the undertaking would be interfered with by the time required to comply with the Act.
- B. The commuters using the passenger rail services formerly provided by VIA in these corridors will be inconvenienced if the services are not restored by GO Transit.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. The undertaking is located within or adjacent to existing railway transportation corridors.
- B. The rail passenger services offered by GO Transit are an alternative to the use of private vehicles for trips to and from points accessible by GO Transit and the public transit systems to which GO Transit facilities connect.
- C. The implementation of this project without delay is recognized as being a desirable goal by the Cabinet and is in the best interests of the Province.
- D. Any construction needed for expansions of the service beyond one train per direction per day will be subject to GO Transit's Class EA procedures or individual approvals under the Act.

This exemption is subject to the following terms and conditions:

1. This order does not apply to any construction activity referred to in the description of the undertaking,

Made—June 28th, 1990.

Approved—June 28th, 1990.

ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—MINISTRY OF NATURAL RESOURCES—MNR-30/10

Having received a request from the Minister of Natural Resources that an undertaking, namely:

The carrying out of the Provincial Parks Program including:

- (a) implementing,
 - (1) Park Management Plans,
 - (2) Resource Management Strategies,
 - (3) Operations Strategies and Maintenance Schedules,
 - (4) Development Strategies,
 - (5) Site Plans,
 - (6) Visitor Service and Interpretive Programs,
 - (7) Capital Construction and Lease Purchase Projects,

in Provincial Parks,

- (b) developing sewage and water works within or for Provincial Parks;
- (c) acquiring land to amend the boundaries of existing Provincial Parks, to complete land acquisition for an existing Provincial Park or for a sewage lagoon in or for a Provincial Park; and
- (d) amending and rescinding boundary regulations for existing Provincial Parks,

be exempt from the application of the Act pursuant to section 29; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. Pre-submission consultation and completion of the Class Environmental Assessment (Class EA) for Provincial Park Management for formal submission will be hampered by having to prepare separate exemptions or assessments for all Provincial Park projects at the same time.
- B. Park environmental and recreational features could be damaged in the absence of Provincial Park projects that address existing park management problems.
- C. Public enjoyment of recreational features may be reduced in the absence of the implementation of Provincial Park projects.
- D. The realization of the government's Outdoor Recreation Program objectives and economic benefits to local communities would be limited.

Having weighed such injury, damage or interference against the betterment of the people of the

whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. This interim exemption will allow Provincial Park plans and projects to continue while the Class EA for Provincial Park Management undergoes pre-submission consultation.
- B. The Provincial Parks Program is carried out within a context of conservation, protection and wise management of the environment. A major feature of the Provincial Parks Program is the preservation of significant natural and cultural features in the Ontario landscape.
- C. The conditions to which this undertaking is subject will ensure that affected government agencies and the public are informed of the Ministry of Natural Resources' (MNR) intentions to implement components of the Provincial Parks Program during the period of this exemption order.
- D. A number of activities that make up this undertaking are similar to activities that are covered by approved MNR Class Environmental Assessments. The Minister of Natural Resources will apply such parts of the procedure specified in the Class Environmental Assessments as are appropriate to the activities that make up this undertaking until such procedures or other procedures are made directly applicable by the Class EA referred to in reason A.

This exemption order is subject to the following terms and conditions:

- 1. This exemption order does not apply to any plan or project,
 - (a) for any provincial park designated by regulation under the *Provincial Parks Act* after June 1, 1983, which does not have a Park Management Plan approved by the Ministry of Natural Resources;
 - (b) where development is likely to affect the habitat of a species designated under the *Endangered Species Act* (except for protecting the species);
 - (c) where the estimated completion costs of a sewage or water works or a capital construction of lease purchase

project is in excess of \$2 million, not including any land acquisition costs.

2. Where any project for provincial park management, or another activity, involves a disposition of certain or all rights to Crown resources, including Crown property, such disposition will be done pursuant to this exemption order. Notice of all such dispositions will be given to the Ministry of the Environment as per condition 3 below.
3. MNR will continue to provide the Environmental Assessment Branch as well as the appropriate Regional Office of the Ministry of the Environment (MOE) with a list of proposed plans and projects (e.g. capital development and facility upgrading projects, facility retirement, park resource management activities, schedules for preparation or review of Park Management Plans) for the Provincial Parks Program no less than forty-five days prior to the implementation of any project. The lists will specify the nature, scope and location of all plans and projects and will specify which plans and projects will be carried out pursuant to another exemption order or approval. MNR will notify the above offices of revisions to the lists no less than forty-five days prior to the implementation of any plans or projects which are the subject of such revisions.
4. A copy of all plans prepared for projects specified in the lists noted in condition 3 shall be available to the public for examination at the appropriate District Office of MNR at least forty-five days before implementation commences.
5. Any activity exempt under this Order that would be approved under a MNR Class Environmental Assessment, except that the approval does not apply to Provincial Parks, shall be carried out in accordance with the appropriate Class EA procedures as though the activity were not in a Provincial Park by,
 - (a) following the appropriate Class EA procedures, including notification, if there is no Park Management Plan; and
 - (b) following the guidelines contained in the MNR Construction and Mitigation Handbook if there is a Park Management Plan.
6. Within forty-five days of receiving notification from MNR under condition 3 or 15, and after consultation with the Minister of Natural Resources, the Minister of the Environment may, by written notice to the

Minister of Natural Resources which outlines his reasons,

- (1) direct that an environmental assessment be prepared for the proposed plan or project, in which event the plan or project will not be exempt under this Order; or
 - (2) give notice that he is considering the application of subcondition (1) to the proposed project.
7. Where the Minister of the Environment has given written notice to the Minister of Natural Resources under subcondition 6 (2), the MNR shall not implement the project until forty-five days have elapsed from the giving of notice or the Minister of the Environment gives written notice to the Minister of Natural Resources that it is not proposed to require an environmental assessment, whichever occurs first.
 8. During the period covered by this Order, the Provincial Parks Program shall be planned, managed and implemented according to the following Provincial Parks' guidelines and policies:
 - Ontario Provincial Parks Policy
 - Ontario Provincial Parks Planning and Management Policies
 - Ontario Provincial Parks Management Planning Guidelines: 1983
 - Provincial Parks Management Planning Reference: 1988
 - Ontario Provincial Parks Provincial Operating Standards
 - Ontario Provincial Parks Development Manual
 - Ontario Provincial Parks Development Standards
 - Ontario Provincial Parks Capital Maintenance Standards
 - Parks and Recreational Areas Branch Policies and Procedures
 - Visitor Services Interim Policy.
 9. The guidelines and policies specified in condition 8 and any revisions or additions to these guidelines and policies will be made available by MNR for public inspection upon request and will be forwarded to the Environmental Assessment Branch of the Ministry of the Environment.

10. Those plans and projects under this exemption, but not fully implemented by the date of expiry of this exemption, will have their status under the *Environmental Assessment Act* reviewed in connection with the review of the Class EA for Provincial Park Management and, if provided for in conditions of approval issued in connection with the undertaking, may continue to proceed in accordance with such conditions.
11. Subject to condition 12, this Order expires June 30, 1991 except that the Minister of the Environment, taking into consideration the progress of the Ministry of Natural Resources on pre-submission consultation and any related drafting of the Class EA for Provincial Park Management and upon the written request of the Minister of Natural Resources, may extend this expiry date but this extension shall not be beyond June 30, 1992.
12. The Ministry of Natural Resources shall submit, by December 31, 1990, a schedule for completion of the Class EA for Provincial Park Management. This Order shall expire on December 31, 1990 if this Schedule is not submitted by that date.
13. If the Ministry of Natural Resources has submitted a Class EA under this Act for the Provincial Park Management undertaking prior to the expiry of this Order, this Order shall remain in effect until a final decision on the approval of the undertaking for which the Class EA is submitted has been made.
14. Where an Environmental Assessment has been done and approval to proceed issued for an individual Provincial Park plan or project, that plan or project shall be deemed to be a separate undertaking not exempt by this Order.
15. Before the MNR amends or rescinds boundary regulations for a park (which, for greater clarity, includes the elimination of the entire area of a park) and following appropriate public consultation and notification, it shall give at least forty-five days notice to the Environmental Assessment Branch and the appropriate Regional Office of the Ministry of the Environment.

ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 396/90.

Exemption—The Regional Municipality of Durham—DURH-RG-1.

Made—July 11th, 1990.

Approved—July 11th, 1990.

Filed—July 17th, 1990.

ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—THE REGIONAL MUNICIPALITY OF DURHAM—DURH-RG-1

Having received a request from The Regional Municipality of Durham that an undertaking, namely,

the activity of establishing, operating and closing a waste disposal site in the Town of Pickering known as the P1 Site, located on lands bounded by the York-Durham Line on the west, Altona Road on the east, the 4th Concession Road on the south and the 5th Concession Road on the north, for the disposal of domestic, commercial and non-hazardous solid industrial wastes,

be exempt from the application of the Act pursuant to section 29; and

Having been advised by The Regional Municipality of Durham that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. There will be a period of time commencing in 1993, during which there will be no available waste disposal capacity to The Regional Municipality of Durham in the Greater Toronto Area, and there will be a signifi-

cant shortfall in waste disposal capacity in the Greater Toronto Area as a whole.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. Most waste currently generated in The Regional Municipality of Durham is disposed of at the Brock West Landfill, which is expected to be full to capacity in the summer of 1991.
- B. Landfill capacity available to The Regional Municipality of Durham in the entire Greater Toronto Area is expected to be exhausted by the summer of 1993.
- C. The Regional Municipality of Durham is currently engaged in the development of the Durham Waste Management Master Plan. It is expected that the disposal component of the master plan will take at least four years to implement.
- D. As a consequence of the March 14, 1989 proposal from the five Chairmen of the Regional and Metropolitan Municipalities in the Greater Toronto Area, The Regional Municipality of Durham is also participating in the Solid Waste Interim Steering Committee (SWISC), with the regional municipalities of Halton, Peel, York and The Municipality of Metropolitan Toronto. SWISC is proceeding to develop a comprehensive long term solid waste management system for the Greater Toronto Area. It is expected that the system will not be operational before 1996.
- E. In their March 14, 1989 proposal, the five Regional Chairmen proposed a standby plan to deal with the possible shortfall in disposal capacity in the Greater Toronto Area between 1992 and 1996. In that plan, each Region agreed to nominate one or more contingency waste disposal sites to serve the Greater Toronto Area in that period. The Regional Municipality of Durham has nominated the P1 Site to SWISC and SWISC has endorsed that nomination.
- F. If the P1 Site is not exempt from the application of the Act pursuant to section 29, then The Regional Municipality of Durham would be required to complete a full *Environmental Assessment Act* process in

respect of a contingency site. The length of time required to complete such a process would substantially exceed the date of land-fill exhaustion for the Greater Toronto Area set out in Reason B, resulting in no available waste disposal for the residents of The Regional Municipality of Durham for a period of time commencing in 1993. It would also result in a failure to fulfil the SWISC contingency plan resulting in a significant shortfall in waste disposal capacity to the Greater Toronto Area as a whole.

- G. The environmental suitability of the site will be examined through a detailed, exhaustive and public process under Part V of the *Environmental Protection Act*. This will include a mandatory public hearing before either the Environmental Assessment Board or a Joint Board under the *Consolidated Hearings Act, 1981*.
- H. Comments on the request to issue this order were solicited by the Ministry of the Environment from interested local organizations and comments from members of the public have been considered in preparing this order.
- I. The implementation of the undertaking is a matter of such overwhelming urgency that the public interest would not be served by applying the Act to it.
- J. The undertaking would be subject to the terms and conditions of this order.

This exemption is subject to the following terms and conditions:

1. No waste may be deposited at the site pursuant to this order after December 31, 1996.
2. No waste may be deposited at the site except commercial, domestic and non-hazardous solid industrial waste.
3. (1) No waste originating within an upper tier municipality of the Greater Toronto Area in which at least 25 per cent of the commercial, domestic and non-hazardous solid industrial waste generated within the municipality is not being diverted from the waste stream may be deposited at the site after December 31, 1992.
- (2) For purposes of subcondition (1), satisfaction of the 25 per cent requirement will be determined by the Certificate of the Director of the Waste Management Branch of the Ministry of the Environment based on whether the Municipality in question has implemented programs and

policies which result in a quantity of waste equal to at least 25 per cent of the quantity by weight of domestic, commercial and non-hazardous solid industrial waste collected in the Municipality by municipal collection systems in 1987 divided by the population of the Municipality, as determined by the Ministry of Municipal Affairs for 1987, multiplied by the most recent population of the Municipality as so determined, being diverted from landfill and incineration.

4. That not later than three months after this order is issued The Regional Municipality of Durham establish a Municipal-Regional Waste Diversion Committee to monitor waste haulers and having as its goal to develop programs and policies to divert waste from landfills.

The Committee shall consist of representatives invited from local residents' associations, environmental interest groups, commercial and industrial business associations, and staff of local municipalities and The Regional Municipality of Durham.

Once each year, The Regional Municipality of Durham shall report on the extent of the co-operation and progress on the work of this Committee and file a copy of the Report with the Director of the Waste Management Branch of the Ministry of the Environment, and advertise the availability of the report for public review in an advertisement in a newspaper of general circulation in the Regional Municipality. The availability of the first of such reports shall be advertised not later than one year after the date the Committee is established.

5. The area to be serviced by the site may not exclude any of the five upper tier municipalities of the Greater Toronto Area, namely Durham, Halton, Metropolitan Toronto, Peel and York.
6. The site shall be established, operated and closed in accordance with any terms and conditions attached to any Provisional Certificate of Approval issued pursuant to section 38 of the *Environmental Protection Act*.
7. That The Regional Municipality of Durham establish a Landfill Citizen's Advisory Committee to address complaints and suggest methods to reduce off-site impacts as a result of the landfill operation.

The Terms of Reference of the Committee shall be established by the Provisional Certificate of Approval under Part V of the

Environmental Protection Act if one is issued for the landfill.

8. The supporting documentation for the application for a Provisional Certificate of Approval shall be made available to the public. The public shall be advised of the locations and times when the supporting documentation will be available by advertisements in the local media not later than the submission of the application for a Provisional Certificate of Approval to the Director. the activity of establishing, operating and closing a waste disposal site known as Site VIB located between Torbram and Airport Road and between Mayfield Road and Countryside Drive more particularly known as part of lots 16 and 17 in Concession 6 E.H.S. in the City of Brampton for the disposal of domestic, commercial and non-hazardous solid industrial wastes,

be exempt from the application of the Act pursuant to section 29; and

Having been advised by The Regional Municipality of Peel that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. There will be a period of time commencing in 1993, during which there will be no available waste disposal capacity to The Regional Municipality of Peel in the Greater Toronto Area, and there will be a signifi-

cant shortfall in waste disposal capacity in the Greater Toronto Area as a whole.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. Most waste currently generated in The Regional Municipality of Peel is disposed of at the Britannia Landfill. Based on current estimates, the Britannia Landfill is expected to be full to the approved contours about December 31, 1990.
- B. Landfill capacity available to The Regional Municipality of Peel in the entire Greater Toronto Area is expected to be exhausted by the summer of 1993.
- C. As a consequence of the March 14, 1989 proposal from the five Chairmen of the Regional and Metropolitan Municipalities in the Greater Toronto Area, The Regional Municipality of Peel is participating in the Solid Waste Interim Steering Committee (SWISC) with the regional municipalities of Durham, Halton and York and The Municipality of Metropolitan Toronto. SWISC is proceeding to develop a comprehensive long term solid waste management system for the Greater Toronto Area. It is expected that the system will not be operational before 1996.
- D. In the March 14, 1989 proposal, the five Regional Chairmen proposed a standby plan to deal with the possible shortfall in disposal capacity in the Greater Toronto Area between 1992 and 1996. In that plan, each Region agreed to nominate one or more contingency waste disposal sites to serve the Greater Toronto Area in that period. The Regional Municipality of Peel has nominated Site VIB to SWISC and SWISC has endorsed that nomination.
- E. If Site VIB is not exempt from the application of the Act pursuant to section 29, then The Regional Municipality of Peel would be required to complete a full *Environmental Assessment Act* process in respect of a contingency site. The length of time required to complete such a process would substantially exceed the date of landfill exhaustion for the Greater Toronto Area set out in Reason B, resulting in no available waste disposal for the residents of The Regional Muni-

pality of Peel for a period of time commencing in 1993. It would also result in a failure to fulfil the SWISC contingency plan resulting in a significant shortfall in waste disposal capacity to the Greater Toronto Area as a whole.

- F. The environmental suitability of the site will be examined through a detailed, exhaustive and public process under Part V of the *Environmental Protection Act*. This will include a mandatory public hearing before either the Environmental Assessment Board or a Joint Board under the *Consolidated Hearings Act, 1981*.
- G. Comments on the request to issue this order were solicited by the Ministry of the Environment from interested local organizations and comments from members of the public have been considered in preparing this order.
- H. The implementation of the undertaking is a matter of such overwhelming urgency that the public interest would not be served by applying the Act to it.
- I. The undertaking will be subject to the terms and conditions of this order.

This exemption is subject to the following terms and conditions:

1. No waste may be deposited at the site pursuant to this order after December 31, 1996.
2. No waste may be deposited at the site except commercial, domestic and non-hazardous solid industrial waste.
3. (1) No waste originating within an upper tier municipality of the Greater Toronto Area in which at least 25 per cent of the commercial, domestic and non-hazardous solid industrial waste generated within the municipality is not being diverted from the waste stream may be deposited at the site after December 31, 1992.
- (2) For purposes of subcondition (1), satisfaction of the 25 per cent requirement will be determined by the Certificate of the Director of the Waste Management Branch of the Ministry of the Environment based on whether the Municipality in question has implemented programs and policies which result in a quantity of waste equal to at least 25 per cent of the quantity by weight of domestic, commercial and non-hazardous solid industrial waste collected in the Municipality by municipal collection

systems in 1987 divided by the population of the Municipality, as determined by the Ministry of Municipal Affairs for 1987, multiplied by the most recent population of the Municipality as so determined, being diverted from landfill and incineration.

4. That not later than three months after this order is issued The Regional Municipality of Peel establish a Municipal-Regional Waste Diversion Committee to monitor waste haulers and having as its goal to develop programs and policies to divert waste from landfills.

The Committee shall consist of representatives invited from local residents' associations, environmental interest groups, commercial and industrial business associations, and staff of local municipalities and The Regional Municipality of Peel.

Once each year, The Regional Municipality of Peel shall report on the extent of the co-operation and progress on the work of this Committee and file a copy of the Report with the Director of the Waste Management Branch of the Ministry of the Environment, and advertise the availability of the report for public review in an advertisement in a newspaper of general circulation in the Regional Municipality. The availability of the first of such reports shall be advertised not later than one year after the date the Committee is established.

5. The area to be serviced by the site may not exclude any of the five upper tier municipalities of the Greater Toronto Area, namely Durham, Halton, Metropolitan Toronto, Peel and York.
6. The site shall be established, operated and closed in accordance with any terms and conditions attached to any Provisional Certificate of Approval issued pursuant to section 38 of the *Environmental Protection Act*.
7. That The Regional Municipality of Peel establish a Landfill Citizen's Advisory Committee to address complaints and suggest methods to reduce off-site impacts as a result of the landfill operation.

The Terms of Reference of the Committee shall be established by the Provisional Certificate of Approval under Part V of the *Environmental Protection Act* if one is issued for the landfill.

8. The supporting documentation for the application for a Provisional Certificate of Approval shall be made available to the

public. The public shall be advised of the locations and times when the supporting documentation will be available by advertisements in the local media not later than the submission of the application for a Pro-

ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 407/90.

Exemption—Ministry of
Transportation—MTC-58.

Made—July 11th, 1990.

Approved—July 11th, 1990.

Filed—July 23rd, 1990.

ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—MINISTRY OF TRANSPORTATION—MTC-58

Having received a request from the Ministry of Transportation that an undertaking, namely:

The Remote Northern Airport Program of the Ministry of Transportation which includes:

1. The planning, design, construction and operation of remote northern airports and the buildings, facilities and access roads associated with such airports;
2. The expansion of existing remote northern airports; and
3. Major improvements to and/or relocation of access roads at remote northern airports,

be exempt from the application of the Act pursuant to section 29; and

Having been advised by the Ministry of Transportation that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. The proponent and review agencies will be damaged by the expenditure of resources to review and resubmit a Class Environmental Assessment for an undertaking which normally does not cause significant detrimental environmental effects and for which the existing class environmental assessment process is acceptable to the proponent, review agencies and potentially affected parties.

Having weighed such injury, damage or interference, against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. The Ministry of Transportation (MTO) had demonstrated that the Remote Northern Airport Program provides significant social and economic benefits to the communities served with minimal disruption of the environment. This has been further demonstrated by the development of projects in accordance with the approval which was issued pursuant to Order in Council number O.C. 2801/80 which expired in 1985, and subsequently in accordance with Exemption Order MTC-54 which was filed as O. Reg. No. 168/85 and expired on March 28, 1990.
- B. The Remote Northern Airport projects are undertaken only in response to a request from, and with the co-operation and approval of, the band council of the Indian Reserve to be served by the airport.
- C. The nature of the projects, the scale of the program, the commitment by MTO to follow the previously approved Class Environmental Assessment process for the Remote Northern Airport Program and the possibility of amending this order to exclude any proposal that raises environmental concerns will ensure the protection, conservation and wise management in Ontario of the environment.

This exemption order is subject to the following terms and conditions:

1. Except as provided in subsequent conditions, MTO shall continue to follow the

General.

Made—July 27th, 1990.

Filed—July 27th, 1990.

**REGULATION TO AMEND
 ONTARIO REGULATION 708/87
 MADE UNDER THE
 PENSION BENEFITS ACT, 1987**

1. Ontario Regulation 708/87 is amended by adding the following sections:

7c.—(1) The criteria described in this section must be met before the Commission may consent to the payment of money that is surplus out of a continuing pension plan to the employer.

(2) All persons who are entitled to receive benefits under the pension plan and all members must con-

sent to the terms upon which the surplus is to be paid out of the plan.

(3) All persons in respect of whom the administrator has purchased a pension, deferred pension or ancillary benefit, other than those persons who requested that the administrator do so, must consent to the terms upon which the surplus is to be paid out of the pension plan.

(4) The pension plan must provide that a former member's contributions to the plan and the interest on the contributions shall not be used to provide more than 50 per cent of the commuted value of a pension or deferred pension in respect of contributory benefits to which the member is entitled under the plan on termination of membership or employment.

(5) The pension plan must provide that a former member who is entitled to a pension or deferred pension on termination of employment or membership is entitled to payment from the pension fund of a lump sum payment equal to the amount by which the former member's contributions under the plan and the interest on the contributions exceed one-half of the commuted value of the former member's pension or deferred pension in respect of the contributory benefits.

(6) The share, if any, of the surplus allocated to each person, other than the employer, must not be provided in the form of a cash refund.

(7) Despite subsection (6), a cash refund of contributions may be made in accordance with subsection 64 (7) of the Act.

(8) If surplus is allocated to a person to increase the person's benefits, the person must be offered the choice of receiving the surplus in the form of inflation adjustments to the existing benefits.

(9) The inflation adjustments that are provided must be made,

- (a) by indexing the benefits in accordance with a formula based upon increases in the annual Consumer Price Index;
- (b) by providing an annual percentage increase in the amount of the benefits or an annual increase of a specified dollar amount; or
- (c) by a combination of the methods described in clauses (a) and (b).

(10) For the purpose of subsection (9), the employer may select the method for providing the inflation adjustments.

(11) The pension plan must state who is entitled, or must provide a mechanism for determining who is entitled, to any surplus in the plan after the payment

of surplus to which the Commission is being asked to consent.

(12) Subsection (11) applies with respect to applications under section 79 of the Act made after the 31st day of October, 1990. O. Reg. 412/90, s. 1, *part*.

23a. For the purpose of subsection 80 (10) of the Act, the prescribed date is the day on which this section comes into force. O. Reg. 412/90, s. 1, *part*.
